

## **Clarification of the WPS Winter Uniform during the transition period of 2020-2022**

With the introduction of blue unisex polo shirts in 2020, WPS entered a three-year transition period which will finish at the end of 2022, when several uniform items will be phased out.

After 2022, blue shirts (both short-sleeved and long-sleeved) and white blouses will no longer be part of the WPS school uniform and they will be fully replaced by blue unisex polos, short-sleeved in summer and long-sleeved in winter. We have also introduced an additional winter option for girls – the winter skirt. Winter tunics can be transformed into skirts quite easily, see below for further information.

The Uniform Shop no longer sells white blouses. We currently sell some boys blue shirts (both short-sleeved and long-sleeved) although not in every size and we will not be reordering once our current stock runs out. It is still possible to purchase these as second-hand items.

### **Boys Winter Uniform Options until the end of 2022**

- Long-sleeved blue shirt or a long-sleeved blue unisex polo (can continue to wear short sleeve version if prefer)
- Long grey pants (can continue to wear grey shorts if prefer)
- Grey socks and black shoes

### **Girls Winter Uniform Options until the end of 2022**

- Long-sleeved white blouse or a long-sleeved blue unisex polo (can continue to wear short sleeve version if prefer).
- Long grey pants (can continue to wear grey shorts if prefer)
- Winter tunic or winter skirt – *see below for details*
- White socks or grey tights and black shoes

### **Winter tunic & winter skirt**

The Uniform Shop sells both the winter tunics and skirts, and the girls are welcome to choose the option they feel more comfortable wearing. Winter tunics can be transformed into skirts quite easily – there is no need to buy a skirt if you already have a tunic. Instructions are attached and also available on the uniform shop website.
